BEDWORTH URBAN DISTRICT COUNCIL

PUBLIC HEALTH COMMITTEE

CHAIRMAN

Councillor E. Bevan.

VICE - CHAIRMAN

Councillor Mrs. C. M. Ward.

CHAIRMAN OF THE COUNCIL

Councillor H. W. De'Ath.

MEMBERS OF COMMITTEE

Councillor G. H. J. Barwell.

Councillor J. W. Hackett.

Councillor J. W. Lamb.

Councillor E. Miller.

Councillor M. L. Nelson.

Councillor A. Tallis.

Councillor G. W. Taylor.

Councillor G. F. Bailey.

STAFF OF PUBLIC HEALTH DEPARTMENT

Medical Officer of Health:
E.M.HUGHES, M.B., Ch.B., D.P.H.

Chief Public Health Inspector, Meat and Other Foods Inspector,
Petroleum Officer:
HENRY BURRISS, C.R.S.I., M.A.P.H.I.

Deputy Chief Public Health Inspector:
THOMAS J. PASSMORE, C.R.S.I., M.A.P.H.I.
Cert. Meat and Other Foods.

Additional Public Health Inspector:
JOHN M. BARNES, M.A.P.H.I.
D.P.H.I.E.B.

Additional Public Health Inspector:
ARTHUR G. HARRISON, M.A.P.H.I.
Cert. Meat and Other Foods.

Clerk:
Mrs. J. Boneham.

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH

Public Health Department,
Council Offices,
Bedworth.

TO THE CHAIRMAN AND MEMBERS OF
BEDWORTH URBAN DISTRICT COUNCIL.

Mr. Chairman, Mrs. Ward and Gentlemen,

I herewith present to you my Annual Report on the health of the inhabitants, and the environmental conditions of the Urban District of Bedworth for 1970, together with the report of the Chief Public Health Inspector.

The mid-year estimate obtained from the office of the Registrar General indicated that the population of the Urban District continues to increase. The figure of 41,020 showed an increase of 320 inhabitants compared with 1969.

During the year 823 births were notified which was slightly less than the figure of 843 notifications in the previous year. The birth rate for the District was 17.5 compared with the County and National rates of 16.6 and 16.

189 cases of infectious diseases were notified of which 124 were attributable to measles.

The number of cases on the Tuberculosis Register remains constant at 378.

The Public Health Inspectorate once more, gave of their best during the year. The volume of work continued to increase, the pressure being however relieved by an increase in the establishment and the appointment of an additional inspector.

It was rather disappointing that due to the anticipated shortage of solid smokeless fuel our smoke control programme had to be delayed.

There is little of note which I wish to draw to the attention of the Council.

I wish to thank the Chairman and Members of the Public Health Committee for their interest and support. Appreciation must also be expressed for the co-operation and assistance received from Mr. Burriss and members of the Public Health Inspectorate and colleagues in other Departments.

E. M. HUGHES.

MEDICAL OFFICER OF HEALTH.

TABLE 1

Area of District...	7820 acres
Population (Registrar General's Estimate) mid 1970	41,020.
Rateable Value at 31.3.70	£1,308,917.

THEORY

Let $f(x)$ be a function defined on the interval $[a, b]$. The function $f(x)$ is said to be continuous at the point x_0 if

the limit $\lim_{x \rightarrow x_0} f(x)$ exists and is equal to the value of the function $f(x_0)$.

Let $f(x)$ be a function defined on the interval $[a, b]$. The function $f(x)$ is said to be continuous on the interval $[a, b]$ if it is continuous at every point of the interval.

Let $f(x)$ be a function defined on the interval $[a, b]$. The function $f(x)$ is said to be continuous at the point x_0 if

the limit $\lim_{x \rightarrow x_0} f(x)$ exists and is equal to the value of the function $f(x_0)$.

Let $f(x)$ be a function defined on the interval $[a, b]$. The function $f(x)$ is said to be continuous on the interval $[a, b]$ if it is continuous at every point of the interval.

	Chequer St, Bulkington.	3rd Tuesday in each month. By appointment.
Family Planning Clinic	Newtown Rd, Bedworth.	2nd, 4th and 5th Monday in each month. By appointment

LABORATORY FACILITIES

The Public Health Laboratory situated at the Coventry and Warwick Hospital, Coventry, undertakes the bacteriological examination of samples of water, ice cream and food, also in the investigation of infectious diseases.

The services of the Analyst to the City of Coventry are also utilised for chemical analysis.

THE GENERAL PROVISIONS OF THE HEALTH SERVICE

The General Practitioner service is administered by the Warwickshire and Solihull Executive Council. There are several Medical Practitioners living in the district and others residing outside practise on the periphery.

There are no general hospital services directly available in the district but adequate out and in patient facilities are provided at the Nuneaton and Coventry Hospitals which are administered by No. 20 Group Hospital Management Committee of the Birmingham Regional Hospital Board. Cases of infectious disease are admitted to Whitley Isolation Hospital, Coventry. Out patient clinics for tuberculosis are held at Riversley Park Clinic, Coton Road, Nuneaton.

Warwickshire County Council are responsible for the administration of the School Health Service and arrangements for Domiciliary Nursing and Midwifery Services, Domestic Helps, Vaccination and Immunisation, Care of Mothers and Young Children, Care and After Care and the Ambulance Service as laid down in Part III of the National Health Service Act, 1946.

With the exception of the Ambulance Service the day by day administration of these Services is under the control of the Area Medical Officer, Area Health Department, Rye Piece, Bedworth.

ANNUAL REPORT OF THE CHIEF PUBLIC HEALTH INSPECTOR.

TO THE CHAIRMAN, MRS. WARI AND MEMBERS OF THE
BEDFORTH URBAN DISTRICT COUNCIL.

Mr. Chairman, Lady and Gentlemen,

I have much pleasure in submitting my Annual Report for the year 1970. It has been a matter of disappointment to the Department that the proposed No. 4 Smoke Control Area had to be postponed because of the uncertainty of the smokeless fuel supply. However, this enabled the Department to concentrate more on Improvement Grants and with gratifying results, as shown in the table in this report. It will be noticed that for the first time the number of Improvement Grants exceeds the number of Standard Grants and it is expected that this will be the trend for the future. In addition inspection of the area has taken place with a view to establishing a General Improvement Area.

Apart from the above, attention has been given to inspection of premises under the Offices, Shops and Railway Premises Act 1963. During the year 5 accident reports were received none of which could be attributed to and failure or neglect on the part of the employers.

All food premises and factory canteens have been inspected, and 100% inspection of all animals slaughtered at the three private slaughterhouses was obtained.

Finally, I would like to thank the Chairman and Vice Chairman of the Health and Housing Committee also the Medical Officer of Health for their help and guidance and the Public Health Inspectors for their efforts in achieving the above.

H. BURRISS.

CHIEF PUBLIC HEALTH INSPECTOR.

HOUSING.

Females	327

CONTRAVENTIONS OF ACT

NO. OF NOTICES.

Abstract of Act not displayed	34
Absence of thermometer	12
Unsatisfactory floor covering	3
Lack of cleanliness	19
Insufficient heating	5
Walls and ceiling in need of redecoration	1
Defective wall plaster	1
Inadequate first aid box	23

ACCIDENT REPORTS.

5 accident reports were received during the year. In all the cases none of the accidents could be attributed to any failure or neglect on the part of the employers and there was no need to take formal action.

CARAVAN SITES AND CONTROL OF DEVELOPMENT ACT, 1960.

There are 12 Licenced Caravan Sites in the Urban District on which are sited 240 caravans.

All sites have main drainage, mains water and electricity and are in a reasonably satisfactory condition.

FOOD PREMISES.

The number of Food Premises registered under Section 16, Food and Drugs Act, 1955.

Ice Cream, Sales and Storage	78
Sausages	15

VISITS TO FOOD PREMISES.

Fried Fish Shops	15
Bakehouses	10
Butchers shops, stalls vans	20
Catering establishments	8
Other shops including public houses	120

MEAT INSPECTION.

There are three licenced slaughterhouses in the area, inspection being carried out on a rota basis by the Deputy and two District Inspectors. Ante-mortem inspection and 100% meat inspection has been achieved.

TOTAL WEIGHT OF CONDEMNED MEAT 1 Ton 17 cwt 1 qr.

CONDEMNED FOOD.

Routine inspection of food shops and notification by retailers resulted in the voluntary surrender of a large variety of food as being unfit for human consumption.

TOTAL WEIGHT OF CONDEMNED FOOD 2 Tons 15 Cwts 1 qr.

INSPECTION AND SUPERVISION OF FOOD PREMISES, INCLUDING PUBLIC HOUSES.

The inspections are carried out to ascertain compliance with the Food Hygiene (General) Regulations 1960 and Section 89 of the Public Health Act, 1936.

Certain infringements were found during the above inspections, all such defects were remedied and in certain cases improvements to premises were made.

RODENT CONTROL.

Owing to frequent illness on the part of the Rodent Control Officer and additional duties being given to the Public Health Department, the work of rodent control is contracted out to Messrs. Rentokil Limited.

Service has been found to be both cheaper and more satisfactory, and in addition treatment of sewers carried out in a more expedient way. Altogether a much better service is being provided to the public.

OFFENSIVE TRADES.

There are no premises in the District where offensive trades are carried out.

SANITARY CIRCUMSTANCES OF THE AREA.

WATER SUPPLY.

The water supply of Bedworth is constant, and is obtained as follows:-

- (a) Two sources at the Newdigate Colliery, in the West Ward of the district.
 - (1) From an adit in the Frank Shaft, 270ft below ground surfaces.
 - (2) From a 12" borehole, 220ft deep.
- (b) 20" borehole, Bedworth Waterworks.

The borehole is 20" in diameter and 275 feet deep.
- (c) Exhall Deep Well.

The Well is 9ft in diameter, and approximately 260-300ft deep.
- (d) Coventry Corporation, for certain districts in Exhall.
- (e) Birmingham.

This is used as a supplementary supply, being piped via Nuneaton.

All this water is pumped into a storage reservoir at the Waterworks. The reservoir has a storage capacity of 750,000 galls. The water is pumped from the reservoir and boosted direct to the town. The water tower is now only used for night duty.

As a result of the above it is considered that the water supply of the area has been reasonably satisfactory in quantity.

Number of samples of town's water submitted for analysis - 4.

MEATCARCASES INFECTED AND CONDEMNED 1970

DETAILS	Cattle excluding Cows	Cows	Calves	Sheep & Lambs	Pigs	Horses
Number killed	366	-	-	2,390	741	-
Number inspected	366	-	-	2,390	741	-
<u>All diseases except tuberculosis and cysticerci:-</u>						
Whole carcasses condemned	1	-	-	-	-	-
Carcasses of which some part or organ condemned	213	-	-	392	142	-
Percentage of the number inspected affected with disease other than tuberculosis and cysticerci	58.1	-	-	16.4	19.1	-
.....						
<u>Tuberculosis only:-</u>						
Whole carcass condemned	-	-	-	-	-	-
Carcasses of which some part or organ condemned	-	-	-	-	6	-
Percentage of the number inspected affected with tuberculosis	-	-	-	-	0.8	-
.....						
<u>Cysticercus Bovis</u>						
Carcasses of which some part or organ condemned	-	-	-	-	-	-
Carcasses submitted to treatment by refrigeration	-	-	-	-	-	-
Generalised and totally condemned	-	-	-	-	-	-

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation

$$f(x) = \int_0^x \frac{1}{1+t^2} dt, \quad (1)$$

where x is a real number. It is well known that the function $f(x)$ is increasing and concave down on the interval $(-\infty, \infty)$. Moreover, the function $f(x)$ is bounded on the interval $(-\infty, \infty)$ and its range is the interval $(0, \pi/2)$.

2. In the second part of the paper, we shall study the properties of the function $f(x)$ defined by the equation

$$f(x) = \int_0^x \frac{1}{1+t^2} dt, \quad (2)$$

where x is a real number. It is well known that the function $f(x)$ is increasing and concave down on the interval $(-\infty, \infty)$. Moreover, the function $f(x)$ is bounded on the interval $(-\infty, \infty)$ and its range is the interval $(0, \pi/2)$.

3. In the third part of the paper, we shall study the properties of the function $f(x)$ defined by the equation

$$f(x) = \int_0^x \frac{1}{1+t^2} dt, \quad (3)$$

where x is a real number. It is well known that the function $f(x)$ is increasing and concave down on the interval $(-\infty, \infty)$. Moreover, the function $f(x)$ is bounded on the interval $(-\infty, \infty)$ and its range is the interval $(0, \pi/2)$.

4. In the fourth part of the paper, we shall study the properties of the function $f(x)$ defined by the equation

$$f(x) = \int_0^x \frac{1}{1+t^2} dt, \quad (4)$$

where x is a real number. It is well known that the function $f(x)$ is increasing and concave down on the interval $(-\infty, \infty)$. Moreover, the function $f(x)$ is bounded on the interval $(-\infty, \infty)$ and its range is the interval $(0, \pi/2)$.

5. In the fifth part of the paper, we shall study the properties of the function $f(x)$ defined by the equation

FACTORIES, WORKSHOPS AND WORKPLACES.

Inspection of Factories, Workshops and Workplaces, including inspections made by Public Health Inspectors.

<u>PREMISES</u>	<u>NUMBER OF</u>		
	<u>Inspections</u>	<u>Written Notices</u>	<u>Occupiers Prosecuted</u>
Factories (including factory laundries)	14	10	-
Workshops (including workshop laundries)	-	-	-
Workplaces (other than outworkers premises)	-	-	-
	<u>14</u>	<u>10</u>	<u>-</u>

DEFECTS FOUND IN FACTORIES, WORKSHOPS AND WORKPLACES.

	<u>Number of Defects</u>	<u>Number of offences in</u>
	<u>Found</u>	<u>respect of which</u>
		<u>prosecutions were made.</u>
Nuisances under the Factories Act, 1961.		
Want of cleanliness	2	-
Want of ventilation	5	-
Other nuisances.	-	-
Sanitary accommodation		
Unsuitable or defective	3	-
	<u>10</u>	<u>-</u>

INSPECTIONS FOR PURPOSE OF PROVISIONS AS TO HEALTH (INCLUDING INSPECTIONS MADE BY PUBLIC HEALTH INSPECTORS.)

<u>PREMISES</u>	<u>Number on Register</u>		<u>Number of</u>	
	<u>Inspections</u>	<u>Written Notices</u>	<u>Occupiers prosecuted</u>	
1. Factories in which Sections 1,2,3,4, and 6 are to be enforced by Local Authorities.	-	-	-	-
2. Factories not included in (1) in which Section 7 is enforced by the Local Authority.	139	14	5	-
3. Other premises in which Section 7 is enforced by the Local Authority (outworkers' premises excluded)	-	-	-	-
